**IRMA LOOSE AND WIN IN SOFT BALL GAMES.**  
On Thursday evening the Irma Girls Soft ball team met the Odd-fellows on the ball diamond in a keenly contested game that resulted in a score of 17-12 in favor of the Oddfellows.

Friday night the Junior Boys team challenged the Girls to a game, the girls winning 12-10. We understand that the boys' pitcher is out his weeks spending money as a result of betting on the game. The girls team extend their sympathy to the pitcher owing to him being laid up with a sprained ankle and sore arm.

## CHURCH NOTICES AND ACTIVITIES

### UNITED CHURCH

The Services next Sunday will be at 10 a.m. at Alma Mater and Town. The preacher will be the pastor.

### ANGELICAN CHURCH

Service on Sunday next August 24th, in Irma United Church at 3 p.m. The Rev. Bee of Viking will preach at this service.

**ST THERESA CATHOLIC CHURCH IRMA, ALBERTA**  
Service on the first Sunday of each month at 11 a.m.

### WOMENS AUXILIARY MEETING

**AUGUST 26th, 1930**  
The next Womens Auxiliary meeting will be held on Tuesday August 26th at the home of Mrs. George Higginson at 2.30 p.m. Mrs. Batchelor and Miss Bacon serving lunch. Everybody Welcome.

## Women's Institute Column

The Women's Institute wish to thank all those who so generously contributed cooking to the Fair Booth, on such short notice.

We would like all the children brought to the Baby Clinic (under school age preferred) to be examined free of charge on Monday August 25th, from 1 to 4 p.m. Miss Emerson, R.N. a nurse of wide experience will be in charge.

The basketry course has been changed to November, so every one wishing to take the course should have their \$1.00 for the need at the next meeting, or have your name and cash given to Mrs. B. Long who is in charge before next meeting to buy the need.

First year work includes Trays, Sandwich Baskets, Cake and Flour Baskets, Sewing Baskets, Waste paper Baskets, Hanging Baskets, etc. Wooden bases for trays can be ordered locally, also the glass if wanted.

If the bases are bought locally for trays, two-ply fine veneer should be used and they should be bored one-quarter of an inch from the edge with holes to fit No. 4 reed. The holes should be one inch apart. The glass should be double diamond and should be cut to fit inside the holes in the wood. Each student should bring to the class which will be held in the basement of the Church, pocket knife, scissors, steel knitting needle, note book, pencil and tape measure.

A five hour session will be required each day to complete the course, 10 to 12 in the forenoon and one to four in the afternoon.

The ordinary meeting of September will take place Friday the 5th of September owing to the Constituency Conference being held in Edgerton on the 4th.

Will all members please note this change of date and the meeting place will be Mrs. Penwick's, hostess Mrs. Sebonert. A report of the Conference will be given at this meeting by our delegate Mrs. Fischer. Everyone welcome.

Mrs. B. Long.

### NOTICE — NOTICE

All students in Irma Rural High School District who plan on attending school are requested to notify the secretary. This information is asked for, that the board may know how many non-students to admit.

### FOR SALE AT A SNAP

12 x 20 Rumely Engine, 22 x 36 Rumely Separator, with good belts. This outfit with a little care would be threshing on section or more for the next 10 or 12 years.  
E. T. McDowell, Agent. Irma, Alta.

"The most delightful thing in the world is to hold converse with the person one loves most in the world," said a local fellow to his Killam girl. "But it is a bad habit to talk to oneself," she replied.

If insects can think, how does a fly know when you reach for a swatter instead of a sweet, asks a careful observer.

## WOMENS INSTITUTE HOLD CONFERENCE

The twelfth annual conference of the Women's Institutes in the Sedge-wick constituency was held in the hall, Loughheed on Thursday, August 7th. Six out of the seven branches were represented, 134 women being present.

At the morning session the convenors, Mrs. W.N. Bates of Alliance, gave her annual address in which she outlined the progress made in the constituency during the past year and stated that it was arranged at the conference held in Drumheller that district No. 3 should have a specified objective, the provision of two scholarships at the agricultural school, one for a boy and one for a girl. Reports were given by the delegates from Galahad, Sedge-wick, Kinsella, Viking, Argyle and Loughheed respectively, which told of a great amount of work accomplished during the year.

**Annual Reports**  
Mrs. A. Johnston of Alliance, secretary, read the minutes of the last conference and the financial report, which was highly satisfactory. It was decided that the constituency dues be reduced to \$7 plus \$1 for the scholarship fund. The Convenors of standing committees gave their reports, that on immigration by Mrs. J. Scott of Kinsella; agriculture by Mrs. Gares of Viking; legislation by Mrs. L. Sheppard, Alliance; education and better schools by Mrs. J. Foster, Loughheed; household economics by Mrs. Hilliker, Viking; Canadian industries by Mrs. Day, Galahad.

**Address on Girls' Clubs**  
Mrs. J. MacGregor Smith, supervisor of girls' clubs, addressed the conference on girls' clubs and made clear various points in connection with the program of girls' clubs with Girl Guide work.

Mrs. Johnston of Hardy gave a review of the annual gathering of girls' clubs at Mount Royal college, Calgary, in July. Mrs. Gill of Sedge-wick brought forward a resolution from her branch concerning the convening of delegates and convenor's reports. This was tabled to be brought before the next annual convention.

At the close Mrs. Day of Galahad expressed the appreciation of all the guests of the Loughheed ladies for their generous hospitality and Mrs. Hylop, of behalf of the Viking Institute invited the conference to meet in Viking next year.

### EDUCATION OF SOLDIERS' CHILDREN ACT.

Art Wakelyn, the Provincial Secretary of the Canadian Legion, B.E. S.L. in Alberta, has asked this office to be kind enough to publish the terms of the Alberta Provincial Act passed this year under which applications might be made for assistance to the children of ex-soldiers who require aid in obtaining further training in life as follows:

(1) The educational facilities which the Board may authorize shall be:

(a) Academic courses up to obtaining the standing required for entrance into the University of Alberta, or for a second class teacher's diploma.

(b) Technical, agricultural, and commercial courses in those institutions which are covered by the Inspectorate of the Departments of Education and Agriculture.

(c) Nursing, Domestic Science and kindred subjects covered by the Inspectorate of the Department of Health.

(2) The Board is only empowered to grant assistance to children who have attained Grade 8 (eight) standing or higher.

Further information can be obtained from any Branch of the Canadian Legion, B.E.S.L. in Alberta, or direct from the Registrar, The Education of Soldiers' Children Act, P.O. Box 667, Edmonton, Alberta.

When in Banff, stop at the Homestead Hotel and meet your Alberta friends. Ask to see the last edition of the Irma Times and get the latest news from home.

## WEEKLY REVIEW PROV. MARKETS

### CATTLE

Beef—Edmonton reports a better tone noticeable on that market during the past week. Trading has been keener and little difficulty was found in obtaining an outlet for offerings. Choice heavy steers brought from \$5.75@5.85; choice light \$6@5.25; good \$5.50@5.75; medium \$5@5.25.

**Feeder-Stocks**—Offerings in this market have been light, and with a moderate demand a good cleanup has been made. Feeder steers \$4@5; stock steers \$3.50@5; stock heifers \$3.50@4.50, and stock cows from \$3@4.

### HOGS

Edmonton reports a decline of 35c. Latest quotations are, bacon \$11; select \$11.50; butchers \$10.55; fed and watered basis.

### SHEEP

Edmonton reports market is slightly easier, with yearlings \$14@5; ewes \$2.50@4.50; hams \$6@7.50.

### POULTRY — EGGS

Poultry—receipts have been light this week. Bulk of birds in good condition but demand is very limited. Tourist trade extremely light. Heavy fowl quoted from 10c down, broilers bringing from 12@13c.

Eggs—receipts light, and a large percentage of hot weather supplies noted in shipments. Demand fair. Prices steady at: Extra 22@24; firsts 20@22, and seconds 15.

Hay—offerings of upland and timothy fairly liberal, but owing to limited demand, movement is slow. Upland quoted at \$12, and timothy at \$16@17 per ton, at country points.

Oats—quotation of 40c per bushel prevailing. Receipts light, but are sufficient to take care of all orders. Greenfeed expected first offerings in this feed some time early next year.

**Wool**—Market still unsettled. Country hides practically neglected, and even packer skins are slow moving. Jobbers advise shipping as they hold no hopes for an improvement in prices this year.

Receipts continue to be light, but believed that big ranchers have turned their stocks over. Demand slow. Quotation of 7@8c prevails.

**SET WAGE SCALE IS DEMANDED BY HARVEST WORKERS**

A regular scale of wages for harvest workers are now being demanded by the extreme left of the labor movement.

An organization which styles itself the "Lumber and Agricultural Workers Union" is placarding the city and district with notices printed in red urging all workers to ask for 50 cents per hour for harvest work.

Those working on combines are urged to ask for 75 cents per hour. All are requested to demand time and a half for overtime and an eight hour day, no dockages for break downs or board.

—Edmonton Bulletin.

### WHEN AUTUMN WINDS BLOW CHILL

It is time to consider the condition of your Fall and cold weather garments. It is not too early to send them to us for renovating. Fur trimmed coats should be dry cleaned and moth-proofed at the beginning of the season before any harm has been done. Our repairing and altering departments can also assist you in maintaining your wardrobe at its highest standard. A special department is maintained for our out-of-town patrons.

### The Russian Menace

Soviet Russia presents a menace to Great Britain, Canada, the United States, in fact, to all countries which depend for their prosperity upon a world export trade. The Russian menace of today is not one of impending war fought by armies and navies, rifles, cannon, tanks, bombs and aircraft, but of a great economic struggle for world trade, and of the countries most likely to be seriously affected by such a struggle the British Commonwealth of Nations, and the United States come first.

Prior to the Great War it was frequently contended that wars between nations were brought about by armament manufacturers and captains of industry seeking territory within which they might enjoy more or less exclusive rights of trading. The Great War itself, was, in the final analysis, caused by Germany's ambition to secure larger world markets and a greater colonial empire. The German navy was created for the express purpose of challenging the British navy with this very object in view. Germany failed, but in the Great War the old Russia of the Czars disappeared, and in its place there has arisen the Soviet Republics dominated by the communist workers.

The Soviet leaders are absolutely ruthless in their methods, inspired by the ideals of fanatics, and spurred on by a belief that their ideas of government are the only right ones leading to freedom of the masses as opposed to all other forms of government which they hold are under the control of the hated capitalist classes. To the Soviet leaders all methods are right and fair if they will serve to achieve their purpose. Hence the nature of the economic struggle now confronting the world.

Having seized the property of all the landed and capitalist classes of Russia, having declared it a crime for any person in Russia to hold views contrary to those of the Soviet authorities, and having imposed ultra-communist ideas upon the whole of Russia, the Soviet leaders are now utilizing and working these seized, or stolen, properties with what is to all intents and purposes convict labor. And if there is any shortage of such labor, thousands more are made readily available by trumped-up charges of treason or disobedience to the Soviet, and without trial are thrown into forced labor camps.

Coal, pulpwood, agricultural products, notably wheat, produced under such conditions at a cost against which the producers of no other country can successfully compete, are now beginning to be thrown into the markets of the world. Some tens of thousands of tons of Russian coal are being shipped into Canada; scores of shiploads of Russian pulpwood are being sent to the United States to enter into competition with Canadian pulpwood, pulp and paper; Russian wheat is going to England where it displaces hard Canadian wheat as it is largely of the same hard variety.

And this is only the beginning. The Russian Soviet Government has expended hundreds of millions of dollars within the last few years in the purchase of the most up-to-date agricultural machinery. It has granted concessions to Henry Ford to establish a great plant for the manufacture of tractors in that country; it has engaged the services of the most noted railway and agricultural experts to direct operations in Russia; it has sent commissions of its own experts to foreign lands, and more particularly to Canada and the United States, to study methods of transportation and marketing—all with a view to making an aggressive bid for the trade of the world, and based on methods and costs of production with which other countries with their greater liberty of the individual and higher standards of living cannot begin to compete.

Such, in brief outline, is the serious nature of the menace to Canadian and United States business in the Russian situation. United States labor and United States industrialists are strongly battling the unfair Russian competition. Canada must be ready, while a country may be willing to face the competition of other countries, both at home and abroad, upon equal terms, no country can compete with conditions such as those now prevailing in Russia and survive. It is apparent that Russia, having failed in its political attempts to sovietize the world, has now embarked upon an economic conquest.

Under these circumstances, the approaching Imperial Economic Conference, in London, England, is fraught with greater importance than any previous Empire Conference. Hon. C. A. Dunning announced that his budget was an indication of the spirit in which the King Government intended to approach that Conference, but the King Government has been defeated, the responsibility now rests with Premier Bennett, in collaboration with Premier Ramsay MacDonald, and the other Dominion Premiers, to work out an economic policy for the Empire which will enable all its component parts to successfully resist the Russian menace, and at the same time develop intra-Empire trade to its fullest possible extent. Every Canadian will wish Mr. Bennett well in his important task.

### Deceiving the Customer

These Berry Boxes Were Worse Than the Standard False Bottoms

In the "museum" of the Dominion Fruit Branch, at Ottawa, is a curio of unusual interest. It is a full tray of twelve blueberry boxes, each box of which is nearly half-filled with blocks of board, bits of field trash and old wood. It was picked up by the inspection service through the complaint of a purchaser on a large Eastern market. To the customer to whom these boxes were sold was a case of "convex empor" with a vengeance.

The French Government is being urged to rivet to the top of the Eiffel Tower a 22-foot flag tower, making it again the world's loftiest structure, a position now occupied by the Chrysler Building in New York.

He—"About a half mile from the crossing he put on a terrible burst of speed to beat the train to it."  
She—"And did he get across?"  
He—"Yes, they put one on his tombstone."

### Crosses Canada On Bicycle

Young French-Canadian Wins Wager Of \$1,000 On Reaching Vancouver

Noel March, young French-Canadian from Halifax, wheeled his battered bicycle into Vancouver, on August 8th, and won a wager of \$1,000.

March left the Atlantic coast April 15, with \$15 in his pocket and a supply of food on the crossbars of his bicycle. He was to reach the Pacific before midnight, August 15. Notwithstanding the fact that he wheeled his machine into a ditch near Lynton and spent two weeks in a deserted shack with an injured back and leg, the wiry little Canuck reached his goal one week ahead of time.

Have Minard's Liniment on your shelf.

### Production Of Cordage

According to a report by the Dominion Bureau of Statistics, the total value of production in the cordage, rope and twine industry in 1929 was \$11,798,165. This compares with \$10,839,961 in 1928, the increase in value being \$958,204, or 8.84 per cent.

An honest man is one who says, "I don't know," instead of saying, "Look it up yourself, son, and you'll remember it better."

A good home is worth all you put into it in time, money and effort.

### Agricultural Wealth Of Canada

Gross Agricultural Wealth Of Dominion Nearly Eight Billion Dollars

The gross agricultural wealth of Canada for 1929 is estimated at approximately \$7,978,683,000 in a summary published recently by the National Revenue Department.

Last year the total revenue from agriculture was \$1,667,213,000, of which Ontario accounted for \$509,484,000; Quebec, \$320,422,000; Saskatchewan, \$309,308,000; Alberta, \$228,589,000; Manitoba, \$134,095,000; British Columbia, \$55,235,000; Nova Scotia, \$43,558,000; New Brunswick, \$39,854,000, and Prince Edward Island, \$26,723,000.

The two principal items which go to make up the total of agricultural revenue are field crops, valued at \$979,750,000, and dairy products with an estimated value of \$290,000,000. Farm animals are third with a value of \$210,437,000, and poultry and eggs fourth with a value of \$109,316,000.

### Was Run Down Now Well Again

Takes Pleasure In Recommending Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she is easily tired, is depressed and nervous and has no appetite. In a word she is anemic and her health is in a sorry state. It is help that only Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy to weak, despondent sufferers. Concerning them, Mrs. Paul R. Cohn of Banc, Que., says: "I was badly run-down, slept poorly, and awoke as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Remarkable Invention

Teletypewriter Designed To Speed Up Newspaper Production

Successful use of the teletypewriter, one of the newest inventions designed to facilitate newspaper making, was announced by West Chester County Publishers, Inc., White Plains, N.Y., headed by J. Noel Macy.

Several newspapers in the country are using the instrument, by which news stories are sent out on telegraphic impulses and almost simultaneously translated into type, ready for publication.

Readers of the Yorksters Statesman, Mount Vernon, Daily Argus, New Rochelle Standard-Star, Port Chester Daily Item, Tarrytown Daily News, Ossining Citizen-Sentinel and White Plains Daily Press thus are enabled to peruse more late news "breaks" than heretofore has been possible. Speed, ever an essential in journalism, is vastly increased.

The instrument was invented by Walter W. Morey and developed by the Collaboration of Edward E. Kleinschmidt, Frank E. Gannett and others.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

### British General Election

Mrs. David Lloyd George, speaking at a garden party in Wales, prophesied that there would be a general election in the coming autumn. Her hearers were much intrigued by the statement, in view of the key position occupied by the speaker's husband, Liberal opponent in Parliament of the Labor Government.

A letter carrier invented the first screw-propeller for steamships; an undertaker invented the slot-machine; and a barber first thought of fire-scape.

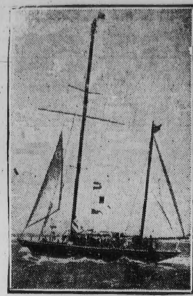

Air Pilot: "By Jove, I forgot to give you a parachute."  
Ginsberg: "S all right. It ain't goin' to rain."

### The Handy Bottle

Minard's is the sure relief in the Handy Bottle. For strains, burns, bruises, boils and tumors.

### SHAMROCK V.

Sir Thomas Lipton's yacht "Shamrock V." reported from Horta, Azores Islands, missing five days by steam yacht "Ena," which was escorting it via Newport, U.S.A., for America's Cup race, and lost sight of in rain squall, but now safe.

### Abolish Tariff Advisory Board

New Body To Be Constituted Under Authority Of Act Of Parliament

The Tariff Advisory Board has been abolished and will be replaced by a new body to be constituted under authority of an act of parliament. Announcement to this effect was made by Premier R. B. Bennett.

The board now existent was constituted by an order-in-council, and not through statutory legislation, in April, 1926. This order-in-council has been cancelled by the new government, and the body to be created will function under authority granted to it by both the House of Commons and the Senate. Legislation for the establishment of the new board will be drafted shortly, and will likely be introduced at the next session of parliament.

The abolished board began its work early in May, of 1926, with Senator Geo. P. Graham as chairman, and Alfred Lambert, Montreal, and D. C. McKenzie, now a member of the Manitoba government, as associate members. Following the resignation of Senator Graham, W. H. Moore became chairman of the board; and Mr. Lambert and Mr. McKenzie, who resigned, were replaced by Hector Ralme, Montreal, and Frank Jacobs, De Winton, Alberta. Mr. Moore resigned on the eve of the general election to contest the constituency of Ontario, in which he was elected as Liberal Candidate. The chairman of the board was in receipt of a salary of \$10,000 per annum, and his colleagues \$4,000 yearly.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its sort and gentle influence relieves the tightened, choking air tubes? It has made asthma, asthma a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

### Empire Preference

London County Council Gives Preference To Empire Products

There is special interest for Canadian farmers in a communication received by the Dominion Department of Agriculture from a London, England, buyer of foodstuffs. "The London County Council has laid down for some time past now that preference shall be given to Empire foods. In furtherance of this policy it has given permission to those responsible for buying foods to pay up to 10 per cent more for an Empire article than for a similar quality foreign product," he states. The London County Council provides food supplies to over 80 large hospitals and 70 institutions of various kinds.

For all Skin Abrasions—Minards Liniment.

### B.C. Industrial Conditions

The industrial payroll of British Columbia, for 1929, is estimated at \$192,062,249, a new high record, in the annual report of the provincial department of labor, the most accurate thermometer of industrial conditions in the province, as issued recently. The total is an increase of \$8,994,462 over the 1928 figure.

A thousand American chefs have chosen petit marmite, poitrine de volaille, pommes-de-terre olivette, bombe surprise, and Mocha fritte for their annual banquet.

In other words, soup, fried chicken and hashed potatoes, icecream and coffee!

Seedy (reading) — Say, Hank, what's er haberdasher?  
Hank—What, don't yer know wot er haberdasher is? Dicit yer ever have no learnin'? A haberdasher is er man wid' a habit of dashin' about.

### Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Millburn Co., Ltd., Toronto, Ont.

### Live Stock Sales

New System Of Reporting Sales and Prices Has Been Applied

A new system of reporting live stock sales and prices has been put into effect in the Stock Yard and Market Reporting Services of the Dominion Live Stock Branch. The purpose of the new system is to afford a more adequate indication of sales and prices in relation to beef cattle coming on the market. The principal change brings to the top of the list the section of beef cattle in greatest demand, providing a clear indication of the volume and price range of the popular light cattle, and providing the producer with a more adequate indication of grade and price than was possible under the old system.

### Earthquake Area Extended

Heavy Loss Of Life Reported On Shores Of Caspian Sea

A terrific earthquake killed 500 persons and injured 4,000 others on the northeast shores of the Caspian Sea, a Rigpa dispatch to the London Morning Post states.

The towns of Tchapaev and Vritsky were reported destroyed. The bodies of 30 children were recovered from the ruins. A children's home at Tchapaev was destroyed by the shocks, the Morning Post report said.

The dispatch said 200 houses at Tchapaev were razed, and the church destroyed by the quake.

The Ural River was reported to have flooded the town.

Keep Douglas' Egyptian Liniment handy in its attack. It cures all kinds of ailments in the stable, ready for immediate use. Removes proud flesh and inflammation, Thrush of Hoof Rot, and infection of cow's teat.

### Says Theatres Are Doomed

George Bernard Shaw Says Talking Pictures Usurping Legitimate Stage

The doom of the theatre has been sealed, George Bernard Shaw said recently, upon signing his first talking picture film contract calling for the filming of his play, "How He Lied To Her Husband."

"I am afraid the poor old theatre is done for," Shaw said. "The theatre may survive as a place where people are taught to act, but apart from that, there will be nothing but the talkies."

"All my plays will be made into talkies before long. I signed the contract today because I wanted some money."

"Shaw said 'Arms and the Man' probably would be filmed next. It is one of his more famous comedies.

### Halibut Being Depleted

Warning Is Issued Regarding Situation In The North Pacific

Warning that the great halibut resources in the north Pacific were rapidly being depleted, was conveyed to Canada and the United States in a special bulletin issued by the international halibut commission, and released at Victoria by Chairman John P. Babcock.

The report states that immediate cessation does not seem imminent but that it is no longer possible to believe that the yield is permanent and it has been maintained until the present time.

### A Year's Work

A year's work in the division of chemistry of the Department of Agriculture, at Ottawa, included the examination of 4,263 samples of soils, manures and fertilizers, forage plants, fodders and feeding stuffs, waters, samples of meat and canned foods, and miscellaneous subjects, including dairy products and insecticides.

Persian Balm—the peerless aid to loveliness. Delightfully fragrant. Dainty to use. Leaves no stickiness. A little gentle rubbing and it is swiftly absorbed by the tissues. Tonic in effect. Soothes and dispels roughness and chafing. Keeps skins soft and velvet-textured. Unvalued for charm, distinction and refinement. Used by lovely women everywhere to preserve and enhance their natural beauty.

### Dairy Trade With Orient

Following recent experimental shipments of certified milk from Vancouver to Shanghai and other Oriental points, a regular service has been established, shipments being carried in refrigerators space, and being eagerly sought by European citizens across the Pacific.

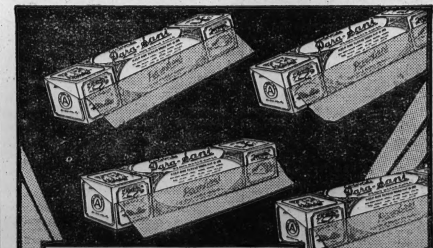

### HOW ONE WOMAN LOST 47 POUNDS OF FAT

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."—Mrs. S. A. Solomon.

"P.S.—You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

### Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary, knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

## A Challenge To Canada To Put British Empire In Forefront Of Airship Transportation

A challenge to Canada to take the next step in putting the British Empire in the forefront of airship transportation through the inauguration of a trans-Atlantic service between Great Britain and Canada before the service between Germany and the United States, being planned by Dr. Hugo Eckener, gets under way, was voiced recently by Sir Denistoun Burney, designer of the dirigible R-100. Sir Denistoun spoke before the Canadian Club, of Ottawa.

The sponsor of the first Great Britain to Canada airship flight asked for the formation of a committee of prominent Canadian business men to investigate the situation and decide whether the Canadian Government and business interests were prepared to back a trans-Atlantic airship service. With the views of such a committee before him, he would be able to lay a concrete proposition before the British Government on his return to London, England.

He was prepared, he said, to undertake at once the construction of an airship with a cruising speed of 85 miles per hour, carrying fuel for a 6,000-mile flight together with 100 passengers and 10 tons of mail. With a fleet of such vessels a regular service between Canada and Great Britain could be maintained, taking 2 1/2 days for the westward crossing and two days for the eastward. He named \$1,000 as the initial passenger fare, but predicted a gradual reduction until it would compare favorably with steamship fares.

It was time to take a bold forward step, Sir Denistoun asserted. If the British Empire was to be knit together culturally, economically and politically, a rapid means of communication had to be provided. A service to Canada offered better immediate prospects of success than the proposed eastward service to India and Australia.

Before the proposal could be put in effect, he said, there were financial and political handicaps to be overcome. Referring to the presence of Mr. Bennett and Mr. King, he said with the co-operation of both parties the political difficulties would disappear. On the political side, he mentioned the necessity of long-term mail contracts and building loans at reasonable interest rates. On the financial side, all that was required was money, and if the business men of Canada got behind the scheme there would be no difficulty. There were no technical difficulties.

Dr. Hugo Eckener, designer of the Graf Zeppelin, Sir Denistoun said, was organizing a German-American company to operate a service between Germany and the United States. If Canada would co-operate the Canadian service would be in operation before the German.

"We could promise regularity of service by establishing an emergency base some hundreds of miles south of Montreal," said Sir Denistoun. "Would it not be a great thing for Canada, if, during the winter months, mails and passengers could leave Toronto or Montreal and arrive in London, England, in 48 hours? Now that the R-100 has flown to Canada, you can see it for yourself. The commercial interests of Canada and the Canadian government have some solid basis on which to form their judgment."

"I want a revolver—for my husband."

"Did your husband say what make of revolver?"

"No, but I don't think that matters. He doesn't even know I'm going to shoot him."

Hurricanes in the West Indies sometimes bring to shore the small islands birds never before found there.

Frozen-egg plants in Shanghai, China, are operating at capacity.

"I could have had a fine job; 425 a month with a fortnight's holiday with pay."

"And what came of it?"

"Nothing. I wanted the holidays before beginning."—Pages Gales, Yverdon.

W. N. U. 1851

### For Airship Travellers

#### Shower Baths Will Be One Of The Comforts To Be Installed

Shower baths are seen as one of many comforts for airship traveller, of the future by Sir Denistoun Burney, who addressed the Advertising Club of Montreal recently.

On her flight to Canada, the R-100 gathered 44 tons additional water from rain and cloud moisture. This involved a saving of \$12,500.50 worth of hydrogen gas, since ordinarily the captain is forced to release hydrogen to compensate for the loss in weight of gasoline fuel as it is consumed.

Helium, a non-inflammable lifting gas, is preferable to hydrogen for use in airships, according to airship experts. Canadian geologists say that geological formations in the neighborhood of Hudson's Bay and Labrador indicate strong possibilities of producing helium, which is extremely favorable to any airship service between Europe and Canada.

### Shaw's Early Literary Effort

#### Nearly One-Seventh Of Canada Lies Being Published For First Time

George Bernard Shaw, who began his literary career as a novelist a half century ago before turning to playwriting, is to appear again in the role of a fictionist. The dramaticist's first novel, written 41 years ago, but laid aside when a publisher could not be found for it, is to appear in September, it was disclosed by William H. Wise, New York publisher.

This early work will be included in a collected set of Shaw's writings, the first five volumes of which will appear simultaneously in London and New York. The author was 23 years old when he penned "Immaturity," which was refused, Mr. Wise said, by some 60 British and United States publishers.

### Experiment With Reindeer

#### To Supply Natural Source Of Food For Eskimos Of Northern Canada

The re-stocking of the Canadian Arctic to supply a natural source of food for the Eskimos is engaging the attention of the North West Territories and Yukon Branch of the Department of the Interior.

A. E. Forslid, who investigated the possibilities of the Western Arctic as a home for reindeer, has left for the west coast of Hudson's Bay, on a similar mission.

Mr. Forslid and his brother, R. T. Forslid, were commissioned by the Government, some years ago, to carry out an investigation in the western Arctic, to ascertain whether the country produced enough moss, lichen and other reindeer fodder, to support these animals in any number. The brothers reported favorably, and the Government bought 3000 head from Loman Brothers, of Alaska. These reindeer are now on the long trek round the northern corner of the continent, bound for Kittigazuit, at the mouth of the MacKenzie River.

The Canadian Government saved the buffalo from extinction from North America by similar measures years ago, and now has so many buffalo that they are being distributed all over the North West. It is hoped that the same success will attend the reindeer experiment, and that the natural increase of the Kittigazuit herd will enable the stocking of the territory west of Hudson Bay. The latter problem depends on the herbage of the area north of the so-called barren lands.

### Eskimos Play Golf

#### Ancient Scottish Game Introduced To Native North Of Churchill

Eskimos play golf—not a variation of the game like "African golf," but the real thing as practiced in Scotland.

Rev. Donald Marsh, graduate of Emmanuel Theological College, Saskatoon, who has already spent three years as a missionary to the Eskimos, has gone north again after a holiday.

Rev. Mr. Marsh introduced the game at Eskimo Point, 200 miles north of Churchill, last year. This time he took a stock of golf clubs, balls and tees with him.

### Goes To Japan

#### Miss Beatrice Shand, Of Montreal, To Be In Charge Of Tokio School

Miss Beatrice Shand, of Montreal and Toronto, has been chosen principal of the international school for children of foreign residents at Tokio, Japan. Miss Shand will take up her duties upon the opening of the fall term, September 15.

Miss Shand is a graduate of Acadia College, Wolfville, N.S., and has taken post-graduate courses at McGill University, Montreal. She is also a graduate of Miss Hunter's school for kindergarten training of New York.

### To Inspect Fisheries

Hon. D. G. McKenzie, Minister of Natural Resources, for Manitoba, is travelling north to inspect fisheries of the province. His visit will touch stations, properties and fish ladders along the shores of lakes Winnipeg, Manitoba, and Winnipegosis, and adjacent waterways.

You are no longer young if you still desire to read a book after somebody tells you it is instructive.

### Judges For Community

#### Progress Competitions Competitions Among Rural Communities In The Three Prairie Provinces

Outstanding men and women, conversant with conditions throughout the prairie provinces, have been selected by the Canadian National Railways to judge competitions among rural communities in the three prairie provinces, which are of European origin, to be held annually for a period of five years, with three substantial prizes of \$1,000, \$500, and \$250, respectively, to be awarded each year in each of these provinces.

The judges are: Manitoba, Dr. John Mackay, Principal, Manitoba College; Brother Joseph Fink, R. C. Provincial, Provencher School, St. Boniface, and Mrs. David Watt, Birtle, who has long been prominent in women's institutes. Saskatchewan: Dr. W. C. Murray, President, University of Saskatchewan; Dr. W. J. Ross, Department of Sociology, Dartmouth College, Hanover, N.H., and Mrs. Violet McNaughton, organizer and president of the Women's Grain Growers' Organization in Saskatchewan, and editor of the women's section, Western Producer, Saskatoon. Alberta: Dr. R. C. Wallace, President, Alberta University; Dr. W. H. Fairchild, Superintendent, Experimental Farm, Lethbridge, and Mrs. R. B. Gunn, Lloydminster, prominent in the women's section of the Grain Growers.

The community which, through the co-operative action of its people, shows the best schools, the most regular attendance of pupils, the largest percentage of children going on for secondary or university training, and takes the keenest interest in matters of public health, social welfare, music, arts and handicrafts, and enthusiastically supports community organizations such as agricultural societies, co-operative marketing pools, women's institutes and home makers' clubs, libraries, etc., or which evinces the greatest interest and reveals the greatest progress in the improvement of agricultural methods, will be the winner of these substantial prizes.

### Saskatchewan Fur Farms

#### Now 222 Registered Fur Farms In The Province

Rapid increase in the number of fur farms in Saskatchewan is indicated in a recent statement issued by the provincial game branch. There are now 222 registered fur farms being operated in the province, 101 of which are fox farms. Under provisions of the Game Act, such farms must operate under a government permit.

The number of farms of each species of fur-bearers follow: Fox, 101; badger, 64; mink, 95; muskrat, 41; raccoon, 13; coyote, 13; rabbit, 3; fisher, 3; beaver, 3; skunk, 3; martin, 3; weasel, 3; bear, 2. In addition, four fur farms are being operated, while 20 are pending.

### The Interpreter

"Do you believe in dharmes, Riley?"

"O do," was Riley's reply.

"Phwat's it a sign of if a married man dharmes he's a bachelor?"

"It's a sign that he's going to meet with a great disappointment when he wakes up."

Carlsbad Caverns are no longer a National Monument but are a National Park.

The average income of people of the Philippines is \$35 a year.

## TEE OFF WITH BOW AND ARROW

The arrow bent the golf ball to the cup in a contest staged recently on the Banff Springs Hotel Golf Course, when Yed-Wah Monee (Lone Walker), and Umbaska Wah-Zee (Lone Eagle), lined up in a foursome against William Thomson, professional of the course, and his daughter Mrs. Peggy Dalgleish, former Alberta Lady Champion, over nine holes. The Indians used bow and arrow while the golfers played with the usual clubs and ball. On the green the Indians shot at a four-inch disc set upright on the cup. Both sides were even at the eighth, and then the Indians won on the ninth. The unique contest excited much interest and enthusiasm among the hotel guests, who formed a large gallery following the play.

## Canada's Claim To Arctic Area Between Mainland and Pole, Will Be Jealously Guarded

### Registered and Certified Seed

#### New Regulations Are To Apply At Royal Winter Fair

An important forward step to promote the commercial production and distribution of registered and certified seeds in Canada has been taken by the Royal Winter Fair, to be held in Toronto, November 19 to 27. A new class has been added to the Royal program for seed growers of wheat, oats and barley, confined to competitors whose growing crops have been inspected in the field under the provision of the Dominion Seeds Act and who have not less than 50 bushels of registered and certified seed grain for sale in a commercial way. The annual package sealed by an accredited inspector at the time he inspects and seals the bags or other containers of the main commercial crop. Briefly this means it will be possible for farmers to buy seed grains by sample with official assurance that the bulk will equal sample. Prize winning in the past did not give this guarantee, because entrants could hand pick the best half bushel from a large quantity of mixed grain. Over 80 prizes are offered. The spring wheat classes include the Marquis group, Garret, Reward, Huron and Minidum. These varieties of winter wheat, oats and barley approved for registration are eligible. Barley may be six-rowed or two-rowed. The 1930 dates for the Royal Winter Fair are November 19 to 27.

### Raspberries Yield Well

#### Grows In Wild State From Coast To Coast In Canada

Horticultural experts of the Dominion Department of Agriculture are authority for the statement that the raspberry is easily the most important bush fruit grown in Canada, and among the small fruits it ranks second to the strawberry. The annual production amounts to some 2,500,000 quarts, having a selling value of roughly \$500,000. This does not take into consideration the production from city lots and back gardens which is very considerable in volume. At a production rate of 1,000 quarts per acre it would take at least 1,500 acres to produce this crop, and including new plantations the area planted to raspberries is close on to 2,500 acres. British Columbia is the leading raspberry producer, with Ontario a close second. The raspberry is not a commercial crop in Nova Scotia or the Prairie Provinces, but it is cultivated to a profitable extent in every Province of the Dominion, and grows wild from coast to coast and as far north as the delta of the Mackenzie River.

### How We Spend Our Time

#### Estimated That A Man Of Seventy Has Spent Two Years Of His Life Shaving Himself

A Frenchman with a liking for curious figures has been counting up the time that a man ordinarily devotes to common occupations of life. He finds that a man of seventy has usually spent about nineteen years working, twenty-three years in bed, nine years amusing himself or being amused, one year in church, and two years shaving himself. This last portion of time he seems to consider as one of the great wastes of life. But, trying to imagine what he would look like if we all had beards, we are not inclined to agree with him. Even if we did all save some time from shaving there isn't any real guarantee that we would put that time to any better uses.—New Outlook.

### Nothing To Fuss About

During the hearing of a case a man began clattering about in the back of the court room, pushing over chairs and generally upsetting things.

"Young man," said the judge, "who had a reputation for ironic wit, 'you are making a great deal of noise.'"

"I have lost my overcoat, your worship," said the agitated young man.

"Well, well," retorted the judge, "people often lose whole suits here without half as much disturbance."

Czecho-Slovakia is developing its air express service.

Roanoke, Va., has the largest rayon plant in the world.

Canada will watch with a "jealous eye" anything resembling a design for the part of a foreign power to establish itself within the zone lying between her mainland and the North Pole, P. E. Corbett, dean of the law school of McGill University, said before the institute of politics.

Dean Corbett, who addressed the conference on "Problems of Sovereignty in the Arctic and Antarctic," stated that Canada claims all discovered land lying between her mainland and the North Pole, and will probably assert a claim to any land that may subsequently be discovered there.

"Where occupation is not yet possible the Canadian claim is justified by principles of territorial proximity and possible strategic importance," he said. "These principles have never hardened into rules of international law, but they have been the basis of time to time as moral and political, if not legal, grounds for the appropriation of unattached lands."

"At the present time, the main interest in the Arctic is in its position as the possible future highway of inter-hemisphere air travel. The shortest way between Great Britain and the western part of Canada is across these northern latitudes, and the same is true for the northwestern United States and northern Europe. Landing and refuelling stations along the route will be a prime necessity, and if such stations in our northern hinterlands are to be within control of any one power that control ought to be Canadian."

Dean Corbett stated that the question of internationalizing the polar regions may arise if expected development in aerial navigation takes place, but that the United States has hitherto displayed slight enthusiasm for such a project and without her it would be foolish to think of any such regime in polar regions.

"In the meantime," he said in conclusion, "Canada, which has what may be regarded as a legitimate expectation of graduating within the next half century into the ranks of the first-class powers, will be bound to pay careful attention to developments in the Arctic, watching with a jealous eye anything resembling a design on the part of a foreign power to establish itself within a zone which we regard as belonging by right to us."

### Value Of The American Hen

#### Poultry Industry Supplies About 10 Per Cent. Of The Total Income

The cow, the sow and the hen are greater farm-income producers, according to United States official rating, than wheat, about which we hear so much nowadays. The poultry industry, that "more sedate" which so many farmers neglect, supplied about 10 per cent. of the total income of American farms during 1928. The egg sales were estimated at \$717,000,000 and the sales of chickens brought in \$458,000,000—a total for the poultry industry of \$1,175,000,000 as compared with a total farm income for the nation of \$11,827,000,000. These figures do not include the value of chickens and eggs consumed on the farms—an item which doubtless would itself run into seven figures.

### Of Special Interest

The research work of the Health of Animals Branch of the Dominion Department of Agriculture is attracting international attention, particularly in relation to the control and eradication of Tuberculosis, and the control of Bang's Disease. When the members of the British Medical Association visit Canada this summer their itinerary includes a day to be spent in the new laboratories of the Animal Diseases Research Institute at Hull, P.Q.

Belgium is considering a tax-reduction program.

Oxford University, in England, has a wrestling craze.

## VIKING

Just on the eve of cutting several districts have been hard hit by hail. This district has been rather fortunate in this respect all summer, but on Saturday afternoon quite a strip south of town suffered some loss. The A. V. White farm and the Gibson farm, one mile south suffered a loss which is estimated at 75 percent. Other places were hit more or less, but the strip of territory as a whole was not very large. Reports are that the district around Lavoie is all hail, and that the Ranfurly district is also badly hit. The country south of Camrose and some south of Sedgewick also report hail. With heavy rains accompanying the hail, much of the grain is lodged, and will present some difficulty in harvesting. "Home Again" is the caption for the announcement appearing in this issue for the reopening of The Torgery, by A. C. Wittmann in the new location on the east side of Main street, one door south of the bakery building. The building is new, the goods are new, but the proprietor is not entirely new to this community having been in business here for several years before opening up at Wainwright. Having a yearning for his old kind town, he is coming back and will be welcomed to the business and social life of the com-

munity once more. The store will carry a stock of ladies' and men's to-order suits and coats, and a full line of furnishings such as is found in an up-to-date establishment of this kind.

John Campbell Stewart passed away in Edmonton Hospital on Wednesday, August 13th, at the age of 64 years.

Mr. Stewart was born in Glasgow, Scotland, and came to Canada, along with his wife, 26 years ago. They lived five years in Wetaskiwin district and then freighted their way across the prairies and took up a homestead twelve miles east of Viking where they have lived ever since highly esteemed by their neighbors. Mr. Stewart enjoyed the very best of health until two years ago, when his eyesight began to fail him. This year other complications set in and for months his health has been noticeably declining, although he was quite active until the week-end before his death.

We note that harvesters are stepping off the train here, and there should be no scarcity of men when the cutting commences in earnest. The days when farmers worried about getting sufficient help to harvest the crop seems to be over.

The pastoral visit of His Grace's Archbishop O'Leary to St. Mary's,

Mt. Carmel and Prague, on Friday and Saturday will long be remembered by the people of these parishes. There was a large attendance at all points visited.

Miss Mary Klontz, of Auburn Washington, is a guest at the home of her brother Ed. Klontz, and other relatives in this district. She has just graduated from the University of Washington, and before returning home expects to visit in the middle States. It is eleven years ago since her last visit here and finds the community as a whole progressing. She is a daughter of Mr. and Mrs. John Klontz, former residents of this district.

Henry Klontz, twelve year old son of Mr. and Mrs. Ed. Klontz, was operated on at the Royal Alexandra Hospital, Edmonton, last week for abscess of the leg. The physicians estimate that he will have to remain in the hospital for at least six months.

"Wasn't your egg cooked long enough?" asked a waiter in a Bruce restaurant of a travelling man. "Yes, but not soon enough," was the reply.

Heard at the poker party: "I hear B..... is a musical genius." "Well, he ought to be after playing second fiddle to his wife all these years."

UNDER  
THE OLIVER FLAG

The All-Around Combines  
Model A and Model B

Oliver Nichols & Shepard Combines—Model A and Model B (with cuts of 10 and 12 feet)—are exactly suited to the needs of this community.

If you have small acreage and a small tractor, the Model A 10-foot Combine is the right one for the job. If you have more acreage and a medium size tractor, it's the Model B 12-foot. If you have a big crop with down or tangled straw, the Model B with 10-foot header is the machine. A medium size tractor will pull this combine, too.

Like all Oliver Nichols & Shepard Combines, the Model A and Model B keep running, keep threshing, keep saving.

Come in and see them.

We got here about 5 o'clock, everyone hot, tired and hungry. After we had our tents pitched we had a very much looked for supper. After supper we made up our beds and went to bed. About 10 o'clock it started to rain, and one of the tents that was not pitched correctly started to leak, and the excited wet girls rushed to dry tents. There were so many in the tents that no one got a chance to get long one or homelick.

The Clear Lake Flood.  
On Thursday afternoon at about 2:30 the C. G. I. T. girls had the worst experience of their camping days. The rain, mingled with hail, came down in torrents making a washout on the grade not far from the camp. Down the ditch the water dashed and foamed on its treacherous road to the lake. Directly in its path stood one of the tents and the girls were mighty busy carrying all the things from the flood. I'm afraid that several of the girls who brought complexions lost them when they went down in the lake with the flood. Then there was a general move towards moving the tents in danger to a better location. After this was completed everyone was busy hanging out blankets, towels, etc., and fortunately for the girls the bed clothes were dry by the time they were ready to use them. The flood of Clear Lake (although very miserable at the time) did not harm except to those who lost complexions as mentioned before.

A couple of the girls in camp are quite skilled in hair dressing and after the girls come out from their dip the hairdressers do their hair and they are quite spiffy looking when they appear at the table when the whistle blows.

Agnes Grant was a visitor at our camp on Friday.

On Friday evening the girls enjoyed a bonfire and the dedication ceremony.

The laughter and yells that rent the air Saturday night from the tents after the "absolute quiet hour" was enough to waken the dead, and the punishment promised if the same were repeated again is to be worse than washing dishes. Wonder if they'll be putting us on a diet? They'll be sorry if they do.

Mr. Jack and "the wee mechanic" were visitors to our camp on Sunday.

When the Ford drove up and the "wee mechanic" stepped out, one of the girls' heart beat so fast she nearly smothered.

All of the girls are trying to swim and some are succeeding wonderfully well. An offer of a prize by the swimming teacher to the first who learns to swim, makes the girls try harder.

Four of the girls were so excited and worked up over a Sunday night boat ride that they had to spend a quiet day indoors Monday.

If you want to learn to wash dishes, come to camp. Excellent advice for brides-to-be.

The Leader always says the girls are so noisy that she cannot sleep. One night she talked the girls to sleep and then the next night she was so tired that she forgot to blow the silent whistle, and so the girls talked her to sleep.

We girls soon got tired sleeping in our own tents, so exchanged sleeping quarters. The reasons for the change was not because of companions but to get acquainted with the other fellow.

From the appearance of the fence we are competing with the Snow-Flake Laundry.

There is a new word being added to the English language and heard frequently around camp. Can you pronounce it? Yehaa!

On Monday afternoon the camp program was carried out by the girls using complaints and sugges-

tions received Saturday, but about 4:30 p.m. the same afternoon several of the girls started looking for the cook, who was found in the car asleep, but got up and cooked supper for the girls.

No wonder the crows bother us, they think there are "cows" in some of the tents the way the girls chew gum.

On Monday evening several toys came by during a pajama parade. Thank goodness the road is several hundred feet from our camp.

They camped on a side hill about a quarter of a mile from us. During the night it rained and about 3 o'clock in the morning we were awakened by the noise of boys.

When the girls went for a dip in the morning a few of the boys had a boat. Some of them pretended they had a large steam boat—little boys do such things you know. Well they tried to steam their boat among us girls. Some of the girls tried to sit on the back of the boat but were gripped off by means of a bar.

Mr. and Mrs. Martin Knudson, Mrs. J. C. Knudson, Mrs. Matheson and Jim, Carl Finch and Ralph were visitors to our camp on Wednesday.

The concert put on by the Juniors Senior tribes was enjoyed by all. The Junior tribe won the prize for the lunch served by the Club and an enjoyable time was had by all present.

The soft ball game between the Catholic boys and ourselves was enjoyed by all. The score was very close, and if time had permitted us to finish we would have beaten the boys. Girls always can eh!

Friday morning we prepared for home. After all was ready we went bathing until the truck arrived. Last call for home until another year, girls.

### WAR VETERANS

ALLOWANCE ACT.  
Aft Wakelyn, the Provincial Secretary of the Canadian Legion, B.E. S.L., in Alberta, through the courtesy of this paper announces the benefits of the War Veterans' Allowance Act which becomes effective on the 1st of September, 1930.

Subject to the provisions of the above Act, allowances are payable to veterans of the Great War (1914-1918) who saw service in an actual theatre of war. Men who saw service in Canada or England only are not eligible unless they are pensioned or have received a final payment for a disability of 5 per cent or more in lieu thereof.

The applicant must have attained the age of sixty years or be permanently unemployed by reason of physical and/or mental disability. The Act contains reservations as to income, restricts the amount payable to \$20.00 per month to a single man or \$40.00 a month to a married man, and requires one year's residence in Canada immediately prior to application.

In Alberta the men should apply to the Department of Pensions & National Health, either at Calgary or Edmonton, for a preliminary application form. Any prospective applicant in doubt as to the operation of the Act can receive full information from any chartered Branch of the Legion in Alberta.

## NEWS ITEMS FROM KINSELLA

Ed Overbo met with a very painful accident on Friday evening last. Ed was assisting J. F. Murray setting up a binder when he stepped on a nail which nearly went through the front part of his foot. He was resting better on Saturday afternoon and it is hoped that he will soon be able to be around again.

Berthold Figure received a telegram from his uncle at Compeer to come and assist during harvest and threshing. He left on Friday morning's train from Loughheed.

Miss Alberta Edney, of South Edmonton who has been spending her vacation of two weeks with relatives and friends in the Jarrow and Kinsella districts returned home on Saturday evenings train.

A baby clinic is advertised to take place in Lee's hall on August 26th, at 1:30 p.m. Mothers in the Community are invited to bring their children up to six years of age. Free health examination, weighed and measured.

Gerald Austin had the misfortune of being kicked by a horse in the face and shoulder while driving a team in Kinsella gravel pit. Luckily he was not seriously hurt and expects to be back to work in a few days.

The dance held under the auspices of the Kinsella Tennis Club on Friday evening last proved very successful. The hall was nicely decorated, and the music furnished by the Irma orchestra was reported very good. Lunch was served by the Club and an enjoyable time was had by all present.

Other attractions the same evening was a dance in the Lake Vernon School. This was also well attended. The crops throughout the district is ripening very fast. Some of the farmers commenced cutting wheat last week, and by the middle of this week cutting will be general throughout the whole district. With Jack Frost keeping away for about three weeks the farmers will have harvested one of the best crops in the history of the district.

Mr. and Mrs. E. C. Williams and daughter Violet, and Mr. Frank Williams and mother were in Mannville on last Sunday afternoon.

A few from here attended the Fair at Irma last Wednesday and also the "talkies."

Among those who went to Edmonton on Monday evening were Mrs. W. L. Ferries and daughter Kathleen, Miss Isabel Stronach and Miss Bessie Scott.

The Misses Elliott's who have been spending the past month with their grandparents Mr. and Mrs. Scott returned home Monday evening to Edmonton.

Nearly every one around here has started to harvest their crop.

A very severe electrical storm passed over this place on Saturday evening, in some places hail was reported.

Don't forget the "Baby Clinic" on August 26th, in Lee's Hall under the auspices of the Womens Institute.

Miss Georgina Lee is spending the week in Edmonton.

There will not be any service in the United Church next Sunday, August 24th, as Rev. Taylor is attending the School of Religion in Edmonton.

The Womens Institute are holding tea and sale on August 30th, in Lee's Hall.

Mrs. Sand's who spent the past week with her sister Mrs. Wangness returned to her home in Edmonton on Saturday evening.

Mr. and Mrs. Fred Ross and family of Viking, spent Sunday afternoon with Mr. and Mrs. Wangness.

Miss Dorothy Williams is spending the week with her friend Miss Ella Cormack, north of town.

Miss Isabel McKee spent the week end with Miss Margaret Scott, north-east of town.

Mr. Grey of B. C. called on the Murray families here last week.

Mrs. Stevens and infant son returned home on Friday from Viking Municipal hospital.

Mr. and Mrs. Mark and family spent Friday in Viking.

CHAPTER XXVI

On a morning in August Charnian unlocked the door into what had so recently been John Carter's office, and opened the casement wide. The floor was no longer covered by the soft Bokhara; the windows were bare of hangings; the bookshelves empty. Only the tall brass andirons gleamed a welcome from the blackened hearth; and the girl wiped the dust from Great-grandfather Davis's old chair, and looked appraisingly at her surroundings.

As she did so a brisk step sounded on the sidewalk, and in another moment the doorway was blotted out by George K's ample figure.

"What you up to this morning?" he questioned genially. "Saw the door wide open, and thought I'd take a look. Kind of bare, isn't it, since your doctor departed? But it's a pretty place in spite of that."

"Come in," smiled Charnian, "you're the one person in Wickfield I want to see."

"You flatter me," replied George K., and smiled.

"Sit down," she said. "This is the only chair, but I'll perch on the desk if you don't mind. Uncle George, I'm sick with indecision on a lot of subjects; but one thing's clear: I've got to give up the school."

"I've been expecting that," the banker responded. "Only last night Salina was saying that Grandma—well."

He hesitated; but Charnian asked bravely: "Then others have seen it, too?"

George K. nodded, and the girl went on: "She's failed this summer—not in her mind, thank heaven! but she's not so brisk and happy as she was a year ago. I've got to be with her more. It was hard last winter,

**for  
ANY CHILD**

We can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. After all, your child has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes constipation, or diarrhea—a condition that should always be checked without delay. Just keep Castoria handy, and give it promptly. Relief will follow very promptly; if it doesn't, you should call a physician.

**Fletcher's  
CASTORIA**

W. N. U. 1851

was what attracted the young man. Don't lose sleep over that. Now I must run in and speak to Grandma. Charnian—"George K. turned as he reached the door. "What's the matter with John Carter? Salina says the life has gone out of his step in the last month. Have you broken his heart?"

Charnian smiled. "I have an uncomfortable feeling that the consensus of opinion in Wickfield is that he has broken mine!"

"He ham!"—has he?" George K. looked so genuinely solicitous that the girl said quickly: "What nonsense!—though if he had I wouldn't admit it for a kingdom. As Grandma frequently remarks, 'we Davises have our pride.' The only thing that's breaking my heart, Uncle George, is the thought that I haven't been clever enough to keep the Davis homestead in the family. As for John Carter, if the life has gone out of his step, I'm truly sorry. He dropped in yesterday when I was at the library, and Grandma said he looked abominably tired. I'll run into his office this afternoon with an imaginary ache, and see what I can do about it. I'd brave even the Wickfield gossip to help as a good friend as he has been to us."

"Well, you know what I hear from your purchaser, my dear."

Charnian stood at the window watching him cross the driveway and disappear under the golden pineapple. "I believe," she mused, "that the whole thing will be easier now it's settled. This will make a darling living room. Grandma will get a better view of the street from this window than from the old one. I can sleep on a couch in here, and Grandma can have the old room. Of course it's the only thing to do. Why, hello! where did you come from?"

This question was addressed to John Carter, who stood, as George K. had an hour earlier, in the doorway. At Charnian's greeting he came forward, tossed his hat onto the desk, and answered: "I couldn't resist the lure of that open door. I never pass here, Charnian, without a homesick twinge. Never again shall I have an office that so exactly suits me; and I miss you and Grandma more than you'd guess. You see, there's not enough sickness this time of year to keep me from thinking of things that had better be forgotten. Well, let's forget 'em!" he said more cheerfully. "What brought you here this morning, may I ask?"

Charnian told him, adding that the old doctor had made the plan for her; and that George K. had a purchaser for the house.

"So you see," she ended, "everything's done—except telling Grandma. I admit that I can't quite face the thought of that order!"

The young man looked very serious as he replied: "Let me tell her, Charnian. I'm hardened to breaking unpleasant truths to people. Besides, unless I'm mistaken, Grandma is fond of me. I can break the news as faintly as you can."

He was seated on Great-grandfather Davis's old desk, and the girl looked up at him from the chair, her blue eyes misting.

"John Carter, I ought to be ashamed! I don't believe a girl ever had such friends before. Here's Uncle George wanting to give me an allowance, so I needn't sell the place; and you—well, I hope some day I can repay you for all you've done for us."

"Island Disappears"

Volcanic Disturbance Causes Island To Sink Beneath Sea

A despatch from Java says the island of Anak Krakatau, or translated into English, Child of Krakatau, which recently had a height of 170 feet, recently disappeared beneath the surface of the sea during intense activity of nearby Krakatau volcano which is throwing out fountains of fire.

From May to August, 1883, there occurred there probably the most tremendous volcanic eruptions of modern times, by which two-thirds of the island was completely swept away. A gigantic wave was formed by which 20,000 people perished, the wave propagating itself as far away as the English Channel.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Exterminator to give relief. Its effects are sure and lasting.

Shortage Of Radium

Radium supplies in the Congo may decrease rapidly owing to the exhaustion of the ore, according to a Johannesburg, South Africa, newspaper, which declares its information is from a reliable source. The result, it is predicted, will be a radium famine with the present price of \$60,000 a gramme being doubled or trebled within a year or two.

Weed Menace

The time of year has arrived when a real blow can be struck at the weed menace. After-harvest cultivation is one of those oldtime methods that should be revived.—Farmers' Advocate.

Minaid's Liniment removes Warts, relieves Bunions.

Take Aspirin tablets and you'll avoid needless suffering from sciatica—lumbago—and similar excruciating pains. They do relieve, they don't do any harm. Just make sure it is genuine.

**ASPIRIN**  
TRADE MARK REG.

and been to us this year. But I guess I'll have to thank Grandma myself. It seems, somehow, as if I ought to; but I feel change deserts me. At the last moment I'll make an ignominious retreat and send for you. Now that's enough of my troubles for one day. Let's hear yours for a change."

Late that afternoon when Charnian returned from a call at the Merry's, she found Grandma, bright-eyed, at the window.

"I've been being gallivanting," she explained as the girl kissed her. "Just after you started, along came the doctor and made me go for a ride. We've been clear to Eastboro, and I don't feel one mile tired. I will say that his car's a sight more comfortable than Edward Howe's was."

"I'm glad you've had such a good time," smiled Charnian. "Mrs. Merry has a new picture of the baby; and Madge wrote that she'd send me another view. He's terribly cunning—looks for all the world like a miniature George. What do you want for supper, Grandma? It's almost time."

(To Be Continued.)

## New Northern Air Route

From Scotland To Winnipeg By Air Seems a Possibility

The leader of the British Arctic Route Expedition, H. G. Watkins, makes out a good case for air travel from Scotland to Winnipeg by way of Greenland. On the line lie the Faroe Islands and Iceland, and nowhere are there more than three hundred miles of water to be flown. There are, of course, the handicaps of fog and the Greenland ice cap with its menace to aviators. The Air Ministry is making a survey of flying conditions between the Faroes and Iceland. The expedition will winter in Greenland, spending their time on the highest part for meteorological research. Canada will be expected to supply details about the crossing of Davis Strait and Baffin Bay, and the feasibility of a route thence to Southampton Island, Hudson Bay, down to Fort Churchill, and thence to Winnipeg. Mr. Watkins predicts that they will do "novel and exciting work" in Greenland. And if the famous ice cap presents no serious obstacle to aviators, the prospects for an air route from Scotland to Winnipeg will begin to look bright.

—New Outlook.

## Island Disappears

Volcanic Disturbance Causes Island To Sink Beneath Sea

A despatch from Java says the island of Anak Krakatau, or translated into English, Child of Krakatau, which recently had a height of 170 feet, recently disappeared beneath the surface of the sea during intense activity of nearby Krakatau volcano which is throwing out fountains of fire.

From May to August, 1883, there occurred there probably the most tremendous volcanic eruptions of modern times, by which two-thirds of the island was completely swept away. A gigantic wave was formed by which 20,000 people perished, the wave propagating itself as far away as the English Channel.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Exterminator to give relief. Its effects are sure and lasting.

## English Boy Scouts To Visit Jasper

Will Spend Six Weeks In Roughing It Over Mountain Trails

With three "billy cans" and two saucepans, home made tents and rubber ground sheets, and only two blankets apiece, 16 members of the 9th troop of Boy Scouts, Leeds, England, passed through Winnipeg recently over the lines of the Canadian National Railways for Jasper National Park, where they will spend six weeks in "roughing it" over the trails of this famous game sanctuary. The boys, who are all pupils of the Leeds Modern Grammar School, are in charge of Dr. G. F. Norton, headmaster of the school, and arrived in Canada on the S.S. Megantic. After visiting Ottawa, they took train for the west and, enroute, have cooked their own meals, used their own blankets and made up their own berths.

When the boys arrive in Jasper, they will leave the main roads and hike into the back country, carrying their food on their backs. Tentative trips have been planned to the Magillie Lake district and to the famous "Columbia Ice Field. Possibly a climb of Mount Edith Cavell may be attempted, as there are a number of enthusiastic alpinists in the party and, although the main object of the visit is to explore the districts not generally visited by tourists, a day or so may be set aside for the ascent.

On leaving Winnipeg, the boys were eagerly looking forward to a period of "real roughing it" in the Canadian Rockies.

Rub It In For Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

## Radio Announcer Is Made Indian Chief

First Radio Announcer In the World To Be Appointed Indian Chief

The first radio announcer in world to be appointed chief of an Indian tribe is George Wright, of CNRV, the Vancouver broadcasting station of the Canadian National Railways. Wright has been made a chief of the Squamish Indians, and given the title of Chief Sa-Sayo-Sa-Nay-Chim which, translated, means Chief Flying Voice. The honor was conferred upon Wright for his assistance in calling to the dying chief of the tribe a daughter who was some hundreds of miles away in a remote section of British Columbia. The last request of the chief was that his daughter be brought to see him.

The museum of comparative zoology, of Harvard, recently received a collection of about 8,000 Hymenopterous insects from Chile.

## Gyproc Makes Summer Homes FIRE-SAFE!

PROTECT your family by making your Summer home draught-proof, dust-proof and fire-safe. The new Ivory coloured Gyproc, that does not burn, will protect you in this service at small cost.

Use it for structurally strong walls, ceilings and partitions. It needs no decoration (when panelled) but you can tint, paper or plaster it if you wish. It is easily and quickly applied, is a permanent asset, and is vastly superior to other building materials.

Your dealer's name is listed below. Ask him today for full information on Gyproc Wallboard or send for interesting free book "Building and Remodelling with Gyproc."

## A RUSTY NAIL

There exists an impression that some particular danger lies in a scratch from a rusty nail. There is danger in any scratch because when the skin is broken there is always the chance of germs entering and causing an infection. The rusty nail is not much more likely to do harm than a clean nail, excepting that the rusty nail has probably been lying around and so has had a better chance of becoming contaminated. The rust itself will do no harm; it is simply some of the iron of the nail which has become oxidized.

The fear of the rusty nail likely had its origin through persons noting that wounds made by rusty articles which had been lying around on the ground caused serious infections, and that tetanus or lockjaw sometimes occurred after such wounds.

If nails lie around on the ground, they are almost certain to rust, and if the earth is contaminated by the secretions of animals, there is every likelihood that the germ which causes tetanus will be there, and it is also quite possible that some of the soil containing these germs will become attached to the rusty nail.

A wound from such a nail is therefore dangerous, not because the nail is rusty, but because it has attached to it some dirt or manure which contains germs capable of causing infection, and because among these germs will perhaps be found that of tetanus.

Unfortunately for us, the germ of tetanus has the power to form spores. The spore is a sort of resting stage during which the germ is able to resist the conditions which destroy most germs. Because of its ability to form spores, the tetanus germ is able to exist in a soil for long periods of time.

A wound in any part of the body should be promptly and properly treated. The most important point is to cleanse the wound thoroughly with soap and water, and then to cover it with a sterile dressing in order to keep dirt out.

A particularly dangerous type of wound is the punctured wound. In such a wound, the penetration is deep, germs may be carried in quite a long

way, and it is difficult, if not impossible to clean out the wound by ordinary washing, as it extends so far below the surface. Wounds of this type should always be brought under medical treatment.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

## CANADIAN GIRLS IN TRAINING CAMP MEET AT SYLVAN LAKE

With the close of the Red Deer district C.G.T. camp at Sylvan Lake on Saturday, August 16th, the camping season for Canadian Girls in Training of the province came to an end.

It has been an unusually successful season. Over 700 girls and about 75 leaders have enjoyed the fellowship of camp life. Three provincial, ten district and three or four local camps have brought the opportunities afforded by camp life within reach of every Canadian Girl in Training from the Peace River in the north to the southern limits in the province. District camps were held at Peace River, Grande Prairie, Gooseberry Lake, Buffalo Lake, Gull Lake, Sylvan Lake, Drumheller, Lake Chiniki, Arrowwood, Turner Valley, Lamont and near Lethbridge, as well as two provincial camps at Lake Wabumum and the Camp Council and Leadership camps at Sylvan Lake.

To improve leadership in the province a Leaders' Training Camp is promoted each year in conjunction with the Boys', Children's, and Young People's Boards. About sixty leaders availed themselves of the opportunity afforded for personal enrichment that they might do their work more efficiently.

All provincial and district camps were supervised by directors sent out by the Provincial Girls' Work Board. It is interesting to note that with the exception of two, all directors had been outstanding Canadian Girls in Training who have grown up with the work. Each director was assisted by a nurse, swimming instructor, camp Mother, camp cook, and local leaders. The program for all camps which includes the three elements play,

study and worship — is based on materials supplied by the National and Provincial Girls' Work Boards. These programs have been developed through ten years of experiment and provide for a week or ten days of well balanced purposeful activity. The camps are run as cheaply as possible to put them within financial reach of every girl.

The policy of the Girls' Work Board is to encourage the procuring of permanent sites. About eight of the present camps are now held on such sites with permanent buildings. District camp committees are organized by Miss Winifred Gilhooley, Girls' Work Secretary for the province, who also prepares the program outlines. Arrangements for the northern provincial camps and the Calgary local camp are made by the Edmonton and Calgary committees respectively. A great deal of the credit for the splendid development of C.G.T. camps in the province is due to Mrs. S. N. Carscallen who has been for a number of years convener of the camp committee for the Provincial Girls' Work Board.

## LESS WHEAT

The International Institute of Agriculture at Rome reports that the world's wheat crop is likely to be about a million metric tons less than that of last year, and about a quarter of a million metric tons above the five year average.

Reductions are also forecast in the yields of rye, barley and oats. To which may be added that the drought has withered the corn crop of the United States to a serious extent. The smaller volumes of these other grains available will react to strengthen the demand for wheat.

Whatever it may amount to in cents per bushel, this glimpse at world crop conditions would seem to suggest an encouraging hope that the Canadian wheat grower may get a more satisfactory price for the crop that is now ripening than he did for that of last year, or that he at least may not have to offer his wheat to buyers who know that they can get more than they require from other sources.

## Main Street

Mr. and Mrs. W. Cole are visiting at Thorhild and Waskasaneau.

Miss Marjorie Locke, is camping at Alberta Beach.

All Public School Books are being carried at the Drug Store, Irma, this year.

Mrs. A. E. Foxwell, is spending part of her vacation with her parents at Winnipeg.

Mrs. Seton and Charlie are spending a couple of weeks with old friends in the Irma district.

Dr. and Mrs. Greenberg, left the first of the week to attend the Medical Convention at Winnipeg.

Milton Ross finished painting and kalsomining Avonlea school last week.

Florence Allen is spending a few days with Mrs. Chase on Strawberry Plains.

Miss Oral Fischer, has accepted a position as teacher at Avonlea school.

Dr. S. R. McGregor, of Oyen, Alberta, was in Irma, Tuesday and Wednesday renewing acquaintances.

Miss Norma McChonachie is visiting Miss Maud Smallwood at her parents farm on Strawberry Plains.

Mr. Elmer Enger left Monday for a visit to his sister Mrs. Davis at Medicine Hat.

Mr. S. M. New and B. Haun, made a trip to Fort Saskatchewan, with Mr. New's truck and brought back a power binder for Mr. Haun.

Miss Price, music teacher and Miss Stewart, teacher in the Irma public school returned after their holidays the first of the week.

The grade nine returns for Crescent Hill pupils were very satisfactory. All the pupils having passed. Leona Frye passed with honors.

Master Clayton and Donald Peterson have just returned from a two weeks visit with relatives in the Carstairs district.

Mr. Ernie Richardson is spending a short vacation with his mother at Sunny Brae before resuming his studies at the University of Alberta.

Mrs. Seton and Charlie who have been visiting old friends in the Irma district for the past two weeks left on Thursday for their home in Edmonton.

The dance at Crescent Hill on Wednesday night would have been a very pleasant affair had it not been for a few "children" from some outlying districts who became rather noisy.

The Baby Clinic will be held in the Irma United Church, on August 25th, from 1 to 4 p.m. All Mothers are asked to bring their children up to six years of age. It is free of charge.

Irma Ladies Aid will meet with Mrs. J. H. Elliott, next Thursday, August 28th, all members and friends are requested to make a point of attending.

On account of a slight infection on her face Mr. McFarland, took his daughter Marjorie, to Edmonton for treatment Monday evening. Mrs. McFarland and Ross Jr. are staying in the city till she recovers.

The next Women's Auxiliary meeting will be at the home of Mrs. Geo. Higginson on Tuesday, August 26th at 2:30 p.m. Mrs. Batchelor and Miss Bacon entertaining. Every lady welcome.

Rev. J. R. Geeson and family motored to Edmonton last Monday to attend the Alberta School of Religion at St. Stephens College. He will be back to take the services next Sunday.

Mr. and Mrs. Moonen, P. L. Maine, and Wesley Maine, motored out from Millet on Sunday with Mrs. E. J. Maine, who will make her home with her daughter Mrs. R. D. Allen in Avonlea for awhile.

On Sunday last Mr. and Mrs. Jas. Fenton and family had a visit from Mrs. Fenton's brother Mr. N. S. Magee, of Stettler, accompanied by Mrs. Magee and son also Mr. McLeod, Mr. and Mrs. Fenton, returned with them to Stettler for a short visit.

The editor and his family are spending a few days in southern Alberta. Mr. E. W. Carter, will receive any news items, advertising copy or any money any of our readers wish to contribute during our absence. We expect return on or about the 27th.

Cutting is on full swing in all parts of the Irma district, with practically no damage from hail, cutworms or other pests. The farmers are harvesting the best crop the district has ever produced. In some fields the grain is badly lodged but this is a lot better than having a yield such as last year.

Wednesday afternoon an interested party of beekeepers met at Irma and discussed matters pertaining to apiculture. Mr. Hillerud, provincial apiarist, was on hand and answered many interesting questions. The districts of Hughenden, Hardisty, Sedgewick and Vermilion, were all represented and some very instructive discussion took place. Mr. Hillerud, was well pleased with the condition of the bees in some of the Irma apiaries.
